

**Manufacturer Representative for Power Reliability Products**

[www.tworiverspower.com](http://www.tworiverspower.com)

Covering the South-Central U.S. with offices in Covington, LA, Nashville and Memphis, TN

### Uninterruptible Power Systems

**Toshiba UPS Systems (Houston, TX)** - <http://www.toshibaups.com>.

Traditional Monoblock On line single and three phase UPS from 1 – 2000kVA. Standard 3-year warranty on UPS and battery. Industry best total cost of ownership. Now with affordable **Lithium Ion Energy Storage (SCiB)** for UPS.

**Gamatronic/SolarEdge** - <http://www.gamatronic.com/>

Modular On line three phase UPS from 10 - 480kVA. Industry lowest three phase front-end cost UPS. Open architecture, non-proprietary, and dongle-free service.

**E1 Dynamics** – <http://www.e1dynamics.com/>

### Transfer Switches, Switchgear, and Quick Connect Panels

**Thomson Power Systems** - <https://www.thomsonps.com/>

Complete lineup of Automatic Transfer Switches ranging from 100A to 4000A, and power generation Switchgear for prime power, standby, distributed generation and cogeneration. **Quick Connection Panel (QCP)** can provide a quick and safe portable generator connection to your system when normal power is interrupted or main power failure. The **Quick Connection Panel** enables your facility to accept temporary service from a rental or portable generator. UL Certified. TN, MS, east AR.

### Low / Medium Voltage Transformers and Surge Protection

**Power Quality International** - <http://www.powerqualityinternational.com/>

Standard Dry Type, Ultra-Efficient and Harmonic Mitigating Transformers from 15kVA – 15MVA, up to 72kV. Manufactured test reports and power meters standard. Surge protection device from 50 – 400kA Per Phase UL Listed, all mode protection and modular.

### Data Center Power Distribution

**Cyberex by ABB** - <http://tnb.com/pub/en/node/831>

Static transfer switches, power distribution systems and remote power panels. AR, MS, TN

### Metering and Monitoring

**Packet Power** – <http://www.packetpower.com/>

Wireless Power and Environmental Monitoring. Pre-configured Single Circuit Monitoring kits. Generators, Data Center retrofits, Colos, PUE, Energy Cost Allocation.

**BTech Battery Monitoring** - <http://www.btechinc.com/>

World's leader in battery monitoring.

### Generator / Emergency Power Back Up

Look to Two Rivers Power to provide complete turnkey generator solutions, including design, installation, all components and services. Industrial, Commercial, Residential, Mobile and Portable Generators. Components such as Transfer Switches, Loadbanks, Switchgear, Parts and Cables. Complete associated services.
